Modal Verbs - Can. Ability: I can speak three languages. Request: Can you hand me the pencil? Offer: Can I help you? Not allowed: You can not drive fast. Possibility: Smoking can cause cancer. Permission: Can I borrow your notebook? www.englishstudyhere.com

Driving Rules (Modal verbs) exercise. Includes questions like 'If you drive a car, you \_\_\_\_\_ see a driving license' and 'You \_\_\_\_\_ drink alcohol and drive'.

Modals section explaining the difference between 'can' and 'may' and providing examples of their usage in various contexts.

Modal verbs exercises b2 online. Mixed modal verbs exercises b2. Modal verbs exercises b2 level. Modal verbs of obligation prohibition and advice exercises b2. Modal verbs exercises with answers b2. Modal verbs of deduction exercises b2. Modal verbs exercises b2 pdf. Modal verbs exercises examples.

The all-electric Bollinger B2 looks primitive but had it reached production, it would have put traditional pickup trucks on notice thanks to its impressive capacities and incredible versatility. The B2 pickup was essentially a stretched version of the upstart brand's B1 SUV with a cargo bed out back. Unfortunately, in January 2022 Bollinger announced it was cancelling both the B1 and B2 models to focus on an electric delivery van instead. Bollinger said the B2's dual electric motors would have combined for 614 horsepower and 688 lb-ft of torque, which would help it tow up to 7500 pounds and carry a payload up to 5001 pounds. Its battery supported fast-charging capability and was estimated to provide a driving range of 200 miles. The B2 also boasted foldable and removable body panels that imitate the Jeep Wrangler and the Jeep Gladiator, and unlocked unrivaled flexibility. EV Motor, Power, and Performance Every B2 would have featured an all-wheel drive system made possible by two electric motors, one mounted at the front and the other mounted at the rear. Together they generated 614 horsepower and 668 lb-ft of torque. Bollinger claimed they would have propelled the B2 from zero to 60 mph in 4.5 seconds and enabled an estimated top speed of 100 mph. Bollinger also said the pickup truck would have a two-speed transfer case with high and low ranges for added off-road capability. Likewise, the B2 was said to have variable ground clearance that ranges from 10 to 20 inches. The electric pickup also had an estimated maximum tow capacity of 7500 pounds and a max payload of 5001 pounds. Bollinger had said its pickup truck would feature a 120-kWh battery pack that was expected to deliver an EPA-rated driving range of 200 miles. The company claimed the battery could be replenished in 10 hours using a 220-volt outlet, but it was also compatible with DC fast-charging that would have reduced that time to 75 minutes. Fuel Economy and Real-World MPGe Although Bollinger estimated that the B2 pickup will earn 70 MPGe, the EPA hadn't announced actual fuel-economy figures. Interior, Comfort, and Cargo Versatility triumphed over comfort in the B2 pickup truck. One of the truck's most defining features was a hollowed-out interior that allowed an item up to 16 feet long to pass through its center. The cabin also had a fold-away rear wall—yes, much like the "Midgate" on the original Chevy Avalanche—that opened it up and extended the 5-foot-9-inch cargo bed by more than two feet. Much like the aforementioned Jeep products, the B2 had removable body panels that included the doors, windows, roof panels, and windshield. View Photos Bollinger The list of infotainment and connectivity features was short and unremarkable. Along with standard Bluetooth, the B2 was slated to offer six 110-volt outlets and an unspecified audio system. Since the B2 pickup would have been a Class 3 work truck, it bypassed certain government regulations that required airbags and crash-testing. Likewise, Bollinger's short list of cutting-edge features meant the B2 more than likely would have had few—if any—driver-assistance technology. Modal verbs can be confusing for many students. This quick guide and follow-up quizzes will help you understand the basics of modal verbs. After studying the following chart, try the challenging modal verb quizzes listed at the bottom of this page. Can do something / Able to do something Someone has an ability to do something. Peter can speak French. Anna is able to play the violin. Could do something / Might do something / May do something / Can do something It's possible for someone to do something. Peter could help you this afternoon. Alice might have gone to the bank. They may know the answers. She can come to the party next week. Have to do something It's a daily requirement of a job or some other common task. Peter has to help customers at the store. They have to get up early on Saturdays. Need to do something It's important to do something. I need to get some milk and eggs for dinner. She needs to do her homework tonight. Must do something It's personally important for someone to do something. I must leave soon because the train leaves in one hour. I must study if I want to get an A. Mustn't do something It's forbidden for someone to do something. Children mustn't go into this room. Motorcycles mustn't be ridden on this road. Don't have to do something / Don't need to do something It isn't necessary for someone to do something, but it is also possible. You don't have to take this class, but it's interesting. You don't need to get up early on Saturday. She doesn't have to work on Sundays, but she does sometimes. Mary doesn't need worry about the wash. I'll take care of it. Should do something / Ought to do something / Had better do something It's a good idea for someone to do something. It's someone's suggestion to someone. You ought to see a doctor. Jennifer should study harder. Peter had better hurry up. Shouldn't do something It isn't a good idea for someone to do something. You shouldn't work so hard. They shouldn't ask questions during the presentation. Modal verbs can also be used to show how probable something is. These are known as modal verbs of probability and follow similar patterns in the present and the past. must be The speaker is 90% sure the sentence is true. She must be happy today. She's got a huge smile on her face. Tom must be in a meeting. He's not answering his phone. could be / might be / may be The speaker is 50% sure the sentence is true. They could be at the party. She might be happy if you give her the present. They might be angry with their parents. can't be / mustn't be The speaker is 90% sure that something is not true. You can't be serious. They mustn't be at the party. might not be / may not be The speaker is 50% sure that something is not true. They might not be in agreement on this contract. Tom may not be at school. Now, try the quizzes: Modal Verb Review Quiz 1 Modal verbs help qualify a verb by saying what a person can, may, should, or must do, as well as what might happen. The grammar used with modal verbs can be confusing at times. Generally speaking, modal verbs act like auxiliary verbs in that they are used together with a main verb. She has lived in New York for ten years. - auxiliary verb 'has' She might live in New York for ten years. - modal verb 'might' Some modal forms such as 'have to', 'be able to' and 'need' are sometimes used with together with auxiliary verbs: Do you have to work tomorrow? Will you be able to come to the party next week? Others such as 'can', 'should', and 'must' are not used with an auxiliary verb: Where should I go? They mustn't waste time. This page provides an overview of the most common modal verbs including many exceptions to the rule. Both 'can' and 'may' are used in question form to ask permission. Examples of Asking Permission with 'May' and 'Can' Can I come with you? May I come with you? In the past, 'may' was considered correct and 'can' incorrect when asking for permission. However, in modern English it is common to use both forms and considered correct by all but the strictest of grammarians. One of the uses of 'can' is to express permission. In the simplest sense, we use 'can' as a polite form to request something. However, at other times 'can' expresses permission to do something specific. In this case, 'to be allowed to' is more formal and is commonly used for rules and regulations. Examples of Simple Questions: Can I come with you? Can I make a telephone call? Examples of Asking Permission Can I go to the party? => Am I allowed to go to the party? Can he take the course with me? => Is he allowed to take the course with me? 'Can' is also used to express ability. Another form that can be used to express ability is 'to be able to'. Usually, either of

these two forms can be used. I can play the piano. => I'm able to play the piano. She can speak Spanish. => She's able to speak Spanish. There is no future or perfect form of 'can'. Use 'to be able to' in both future and perfect tenses. Jack's been able to golf for three years. I'll be able to speak Spanish when I finish the course. When speaking about a specific (non-general) event in the past only 'to be able to' is used in the positive form. However, both 'can' and 'to be able to' are used in the past negative. I was able to get tickets for the concert. NOT I could get tickets for the concert. I couldn't come last night. OR I wasn't able to come last night. 'May' and 'might' are used to express future possibilities. Do not use helping verbs with 'may' or 'might'. He may visit next week. She might fly to Amsterdam. 'Must' is used for strong personal obligation. When something is very important to us at a particular moment we use 'must'. Oh, I really must go. My tooth is killing me. I must see a dentist. Use 'have to' for daily routines and responsibilities. He has to get up early every day. Do they have to travel often? Remember that 'mustn't' expresses prohibition. 'Don't have to' expresses something that is not required. However, if the person may choose to do so if he or she pleases. Children mustn't play with medicine. I don't have to go to work on Fridays. 'Should' is used to ask for or give advice. Should I see a doctor? He should leave soon if he wants to catch the train. Both 'ought to' and 'had better' express the same idea as 'should'. They can usually be used in place of 'should'. You should see a dentist. => You'd better see a dentist. They should join a team. => They ought to join a team. NOTE: 'had better' is a more urgent form. Modal + Various Verb Forms Modal verbs are generally followed by the base form of the verb. She should come with us to the party. They must finish their homework before dinner. I might play tennis after work. Modal verbs grammar can become especially confusing when taking a look at the verbs which follow the modal verb itself. Usually, modal verbs' grammar dictates that modal verbs are followed by the base form of the verb to the present or future moment. However, Modal verbs can also be used with other forms of verbs. The most common of these modal verbs' grammar forms is the use of the modal plus a perfect form to refer to a past time when using a modal verb of probability. She must have bought that house. Jane could have thought he was late. Tim can't have believed her story. Other forms used include the modal plus the progressive form to refer to what may / should / could be happening at the present moment of time. He may be studying for his math exam. He must be thinking about the future. Tom can be driving that truck, he's sick today.
